### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in telephone interviews with Neil Bartfeld on February 2 and 4, 2010.

The application has been amended as follows:

In the Claims:

Claim 1 shall now read:

A method for detecting a diabetic subject at risk for developing a nephropathy, comprising the step of determining whether a sample from the subject has polymorphic sequences comprising an I/D genotype of an angiotensin converting enzyme (ACE) gene, a (z-2) genotype of an aldose reductase (ALR2) gene 5'-(CA) repeats, and a C106T genotype of an ALR2 gene in the promoter region, or a complement thereof, wherein the presence of the polymorphic sequences indicates that the subject is at risk for developing the nephropathy.

Claim 4 shall now read:

The method of claim 1, further comprising the step of amplifying the ACE and ALR2 genes.

Claim 5 shall now read:

The method of claim 4, wherein the amplifying step is performed with primers having SEQ ID NO. 1 and SEQ ID NO. 2 for the I/D genotype of the ACE gene, SEQ ID NO. 7 and SEQ ID NO. 8 for a (z-2) genotype of the ALR2 gene, and SEQ ID NO. 9 and SEQ ID NO. 10 for a C106T genotype of the ALR2 gene in the promoter region.

Claim 19 shall now read:

The method of claim 1, wherein the polymorphic sequences further comprise an M235T genotype of an angiotensinogen (AGT) gene, or a G-308A genotype of a tumor necrosis factor alpha (TNF- $\alpha$ ) gene.

2. Claims 1 and 3-7 are allowable. The restriction requirement of gene/sequence restriction subgroups, as set forth in the Office action mailed on March 17, 2009, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 8, 19 and 23, directed to polymorphic genes, including the G-308A genotype of the TNF- $\alpha$  gene and the M235T genotype of an AGT gene, are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application includes all the limitations of a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: In view of the amendments, the claimed invention is novel and unobvious over the cited prior art of Liu, Marre, Neamat-Allah, Norberg, Ko and Buck. In particular, no prior art was found that teaches or suggests a method for detecting a diabetic subject at risk for developing a nephropathy comprising the step of determining whether a sample from the subject has polymorphic sequences in both the ACE gene (I/D genotype) and the ALR2 gene (z-2 genotype in the 5'-CA repeats and a C106T genotype in the promoter region).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany an issue fee. Such admissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David C. Thomas whose telephone number is 571-272-3320 and whose fax number is 571-273-3320. The examiner can normally be reached on 5 days, 9-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on 571-272-0782. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
